

## **BOB FASANO JOINS JITTER AS VICE PRESIDENT, BUSINESS DEVELOPMENT, ADDING NETWORK SERVICES AND RAPID GROWTH EXPERIENCE**

**Milpitas, California** – 30 March 2007 – Jittr Networks, providers of Instant-On, Full-Screen, HD Quality streaming video, announced today that Robert E. Fasano has been named Vice President, Business Development. Mr. Fasano will lead the company's business initiatives and customer acquisition activities in the rapidly growing video on demand marketplace.

Bob Fasano is a seasoned sales executive that brings over 20 years experience of driving direct sales and channel sales revenue. He has a history of playing a significant strategic and tactical role as a key member of the management team with a track record in building and leading high performance sales organizations that deliver revenue and results. Prior to joining Jittr, Mr. Fasano was Vice President of Sales for KSR, a leading systems management services provider. He also served as Vice President of Sales for OpSource, a leading enabler of Software as a Service (SaaS) On Demand delivery and managed services. He was instrumental in helping build OpSource into a market leader as a SaaS enabler, building a national field sales organization and capturing major accounts. Prior to OpSource, he held senior enterprise security sales positions with VeriSign and served as Vice President Strategic Accounts for Guardent a leading information security services company acquired by VeriSign in early 2004. Prior to VeriSign, Mr. Fasano served in multiple management roles at Exodus Communications, pre-IPO to Nasdaq big board, as well as C&W acquisition in early 2002. At Exodus Mr. Fasano served as Vice President Alliances & Channels contributing over 35% of total revenue to the company and as Worldwide Vice President of Service Provider Sales where he created an \$80M business helping build the company from \$50M to nearly \$1B in a 4 year period. Mr. Fasano was retained by C&W after the acquisition as Vice President North America Alliances. Prior to Exodus, he held various sales management roles including, EVP Sales/Marketing and founding partner of the Internet Mall, Vice President Sales of Best Internet, and Vice President Sales of Netcom.

### **About Jittr Networks**

Jittr Networks provides an advanced, end-to-end video distribution service that radically improves the user experience for streaming Internet video. Our customers include content and digital media providers and content delivery networks who need to offer high-definition and mixed media to large populations of end-users. The Jittr Networks' streaming video delivery service is based on cutting-edge technology, including our own proprietary algorithms, protocols and software. Our unique high-definition and instant on video service provides an end-user experience second to none, and enables new Internet-based business models based on advertising, subscription services, pay-per-view with full DRM, syndication and new hybrid revenue models.
