## About Us

Vusion is the global leader in in-store pricing automation solutions for over 30 years.

Our electronic shelf labels are our key solution to digitalize your shelves, automate pricing processes, and remove manual steps to eliminate errors.

Our unique expertise for operational excellence in-store.

Vusion's operational excellence helps retailers streamline in-store workflows, improve performance, and ensure seamless execution through sustainable and efficient processes.

### Why aim for operational excellence in-store?

**Eliminate time-consuming pricing tasks.** Automate price updates based on product lifecycle and ensure rapid deployment of promotions.

**Ensure execution on the shelf.** Make sure product placements and planograms are aligned with demand and executed efficiently.

**Facilitate product availability.** Provide visibility into on-shelf availability based on customer demand and priority needs.

**Unlock supply chain visibility.** Digitize end-to-end product tracking to increase supply chain visibility and improve inventory turnover.

## What you need to run your store effectively.

### One-time Payment

### Electronic shelf labels

You choose the electronic shelf labels based on your needs, and they belong to you permanently.

### Fixtures

Our electronic shelf labels require adapters to fit securely onto your shelves. We offer several types, including options for shelving and hooks.

### Project Management

A dedicated project manager will work closely with you: they will assess your needs, design templates, set up data flows, integrate your point-of-sale (POS) system with ours, and train you and your team on our tools.

### Monthly Fees

#### 1. Software

Includes the management platform and the in-store employee tools application.

#### 2. Support

777 or 24/7
